

Carbon 101 - Ballarat - BRE7219

Carbon 101 -What does carbon mean for your business?

Are you one of the thousands of Victorian businesses unsure of how the Federal Government's Carbon Reduction Pollution Scheme will affect your business? There is help out there!

VECCI is hosting a briefing for small to medium businesses to help answer these questions and more. This information session will teach you to reduce your businesses impact on the environment and learn about the opportunities available to Victorian businesses that take the lead and respond early to the new carbon economy.

WHAT WILL BE COVERED

- New government regulation and legislation
- The impact of the new carbon economy on small and medium businesses
- How you can make it work for your business now
- Benefits in limiting your carbon emissions and how to do it
- What you can do TODAY!

WHO SHOULD ATTEND

- All small and medium business owners
- Managers and staff interested in climate change
- Businesses concerned about current and future government environmental regulations
